The Moving *Timeline.*

A calm, week-by-week countdown from eight weeks out to moving day — work through it in stages and check off each task as you go.

8 WEEKS BEFORE

- ☐ **Purge before packing.** Eliminate clutter — a yard sale, a donation run, or selling items online.
- ☐ **Create a budget for your move.** Estimate supplies, truck rental, and anything new for the home. Start a moving binder.
- ☐ **Begin packing.** Pack slowly, one room at a time; save the bedroom and a first-night kitchen box for last.
- ☐ **Make reservations.** Book your moving equipment and schedule any helpers you'll need.

AYNURA'S TIP: Label boxes with both their contents **and** the room they belong in. Color-coding each room makes unloading effortless.

4 WEEKS BEFORE

- ☐ **Transfer services.** Call utility, internet, and cable providers to transfer service to your new home.
- ☐ **File your change of address.** Submit online or at the post office — see the Change-of-Address checklist.
- ☐ **Cancel or redirect deliveries.** Switch subscriptions and recurring deliveries to the new address.
- ☐ **Put items in storage.** Reserve a unit for large pieces that won't go to the new home right away.

2 WEEKS BEFORE

- ☐ **Confirm everything.** Re-confirm your truck rental and moving help, and the timing.
- ☐ **Pack your "First Night" box.** Toiletries, a change of clothes, clean sheets, and a towel — clearly labeled.
- ☐ **Inspect and make final repairs.** Walk the old home before you hand it over.

2 DAYS BEFORE

- ☐ **Do the laundry.** No one wants to move dirty clothes.
- ☐ **Clean your old home.** Wipe windows, sweep, and vacuum for the next residents.

MOVING DAY

- ☐ **Energize.** Eat a good breakfast; keep water and snacks handy.
- ☐ **Pick up your equipment.** Arrive early to account for lines; have everything ready if you've hired a crew.
- ☐ **Arrange care for children and pets.** A sitter or a quiet room away from the action.
- ☐ **Make copies of receipts.** Keep moving receipts for future reference and taxes.
- ☐ **Keep calm and breathe.** One step at a time, stay hydrated, allow yourself a break.
